OBJECTIVE

BTech Data Science student with a strong foundation in **AI and Machine Learning**. Seeking to leverage my experience in predictive analytics and published research to contribute to innovative data-driven solutions.

TECHNICAL SKILLS

Languages	Java, Python, SQL (Postgres/MySQL), JavaScript, HTML/CSS, C/C++
Tools & Libs	Git, GCP, Power BI, Pandas, NumPy, Scikit-learn, Keras, SHAP, MLflow, Docker

PROJECTS

ML Model Monitoring & Drift Detection <i>FastAPI, Node.js, React, SHAP, Docker</i>	<i>2026 – Present</i>
--	-----------------------

- Developed an end-to-end microservices framework to monitor production ML models for data and concept drift, utilizing statistical methods to ensure model reliability[cite: 9].
- Collaborated with a 4-member team to design the architecture and authored a corresponding IEEE-format research paper (currently under preparation).

MindTrace AI+ — Real-Time Emotional Intelligence System <i>React, Node.js, Python FastAPI, NLP, MongoDB</i>	<i>2026</i>
---	-------------

- Developed a dual-source monitoring system using Hugging Face NLP and camera tracking to detect distress and trigger real-time SOS interventions.
- Engineered an AI emotional chatbot and cross-platform dashboards to synchronize journaling with visual data for personalized wellness insights.

GroMart — Grocery Management System <i>Java, React, MongoDB</i>	<i>2025</i>
---	-------------

- Published research paper on system architecture in IJCRT.
- Engineered an end-to-end inventory platform for local vendors.

EDUCATION

BTech In CSE(Data Science) KIT's College Of Engineering, Kolhapur. CGPA upto 6th semester : 8.5/10	August 2023 - Present
---	-----------------------

HSC Devchand College Arjunnagar. Percentage: 64.17	2021 - 2022
--	-------------

CERTIFICATIONS

- **Data Analytics by Google** – Coursera
- **Data Analytics Job Simulation (Deloitte)** – Forage
- **Advanced Software Engineering Job Simulation** – Forage
